DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-17, drawn to a multi-color dithering arrangement, classified in class 358, subclass 3.13.

II. Claims 18-22, drawn to an print having defined shapes for each color dithering region, classified in class 358, subclass 3.2.

2. Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case invention I can be used to produce a different product, such as a dithered color printout in which the shapes of each color dithering region are not specified in accordance with two-dimensional dither function values.

3. Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.

Art Unit: 2624

4. Newly submitted claims 18-22 are directed to an invention that is independent or distinct from the invention originally claimed for the reasons described above.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 18-22 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Allowable Subject Matter

5. Applicant's arguments, see Paper #5 filed 9/16/03 (page 8, lines 2-5), with respect to claim 15 have been fully considered and are persuasive. The rejection of claim 15 has been withdrawn.

In particular, Examiner notes that the subject matter added to amended claim 15 corresponds to that previously indicated as allowable in claims 1, 13, & 16.

6. This application is in condition for allowance except for the following formal matters:

Claims 18-22 are withdrawn from consideration as directed to an invention non-elected by original presentation of a different invention.

Art Unit: 2624

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
